

LEADER FILL-EX

AIR/WATER FILLING SYSTEM FOR TRAINING FIRE EXTINGUISHERS.

SAVE TIME!
 FILL SIMULTANEOUSLY
 UP TO 3 TRAINING
 EXTINGUISHERS WITHOUT
 OPENING THEM:

- Permanent Pressure (PP) or Auxiliary (PA) extinguisher
 => the 2 types (PA and PP) can be mixed during a refill
- CO2 fire extinguisher
 => CO2 type extinguishers cannot be mixed with other types (PP and PA) during a recharging cycle

CONVENIENT

Compact, light and robust, the "FILL-EX" filling system is made up of:

- a water inlet,
- a compressed air inlet,
- a control panel
- 3 spiral pneumatic hoses of 2m with quick couplings

RELIABLE IN ALL CIRCUMSTANCES

Entirely made of stainless steel, FILL-EX is a completely mechanical system without electronics.

Very low maintenance thanks to the robustness of the product and the materials used.

As part of our policy of research and improvement of our equipment, we reserve the right to modify the characteristics at any time without prior notice.

BENEFITS

The set allows the trainer to reduce the time spent filling his extinguishers:

- Fast: filling 3 extinguishers simultaneously
- Compact: volume required for storage <40 liters
- Light: <11kg
- Robust: stainless steel body
- Simple implementation
- 2 meter hoses allowing the FILL-EX to be placed on a workbench while leaving the extinguishers on the ground or in a trolley
- Reduced maintenance
- 2 years warranty

TECHNICAL CHARACTERISTICS

Reference	V90-90-068
Name	LEADER FILL-EX
Dimensions	H270x W410x D330mm
Weight	10.5kg
IP	IP65
Hoses	2m spirals
Feed	15bar air compressor (not supplied) Mains water at a minimum of 3 bar (connectors supplied / hose not supplied)
Operating temperature:	-0°C to +50°C.
Guarantee	2 years

OTHERS PRODUCTS

Extinguisher CO₂
 Weight: 5.1 kg
 Height: 590 mm
 Diameter: 90mm
 Time : 10 to 20 sec.
 Water capacity: 0.3 to 1L
 Réf. V90.90.050

Permanent pressure extinguisher
 Weight: 4.3 kg
 Height: 580 mm
 Diameter: 150mm
 Time: 15 to 25 sec.
 Water capacity: 6 liters
 Réf. V90.90.001

Auxiliary pressure extinguisher
 Weight: 4.3 kg
 Height: 580 mm
 Diameter: 150mm
 Time: 15to 25 sec.
 Water capacity: 6 liters
 Réf. V90.90.000

Compressor 15 bar
 Weight: 23 kg
 Dim: 490x250x420 mm
 220V / 50Hz
 Max.: 15 bar
 2 tanks : 4+4 liters
 Réf. V90.90.058
