

BATTERY FAN ACCESSORY

Harness BATFAN

**Makes it easy to carry the BATFAN fan to the site:
Suitable for both ventral and dorsal carrying**

Lightweight:

With only 800gr this resistant and comfortable harness allows to reduce considerably the time of transport of the Batfan especially on stairs...

Ergonomic:

With its wide adjustable straps it adapts to the user's morphology and preserves his back.

Quick to install:

It can be mounted without tools in less than 5 minutes on a BATFAN.
It does not interfere with the proper functioning of the ventilator and therefore does not need to be dismantled before the operation.
